PROFESSIONAL SUMMARY

Senior MIS and business intelligence professional with 10+ years of experience across BFSI operations, collections analytics, portfolio monitoring and management reporting. Experienced in Power BI dashboards, SQL Server analysis, Advanced Excel and Power Query workflows for recurring reporting, validation and reconciliation. Background includes PAN-India portfolio oversight, agency coordination and operational team leadership. Independent technical projects extend this experience into dimensional modeling, DAX and Microsoft Fabric planning concepts, with project work distinguished from employer responsibilities.

TECHNICAL SKILLS

MIS and business intelligence: Recurring management reports, Power BI dashboards, KPI scorecards, variance analysis and stakeholder reporting.

SQL and Excel: SQL Server, SSMS, T-SQL joins and aggregations, MS Access, Power Query, Power Pivot, Pivot Tables, XLOOKUP, INDEX/MATCH and SUMIFS.

BFSI and enterprise reporting: Delinquency, NPA and write-off reporting, aging, roll rates, SAP data consolidation, validation and reconciliation.

Independent technical work: DAX measures, fact/dimension modeling and star schemas in portfolio projects; Microsoft Fabric architecture and capacity-planning exposure.

SELECTED TECHNICAL PROJECTS

Enterprise Global Business Analytics | Independent portfolio

Independent SQL Server and Power BI portfolio project using a three-million-row demonstration dataset; covers data validation, fact and dimension modeling, DAX measures and business KPI dashboards. Dataset figures are illustrative, not employer results.

PROFESSIONAL EXPERIENCE

MIS Manager

DBS Mintek Pvt. Ltd. | Mumbai, Maharashtra, India | June 2025 - September 2026

- Managed daily, weekly and monthly MIS reporting using Excel, SQL Server, Power BI and SAP data to support operational and management reviews.
- Developed Power Query workflows to consolidate multi-source datasets for recurring reporting, data preparation and reconciliation.
- Analyzed high-volume collections datasets in SQL Server Management Studio to identify delinquency patterns and accounts requiring management review.
- Created aging and bucket-wise resolution dashboards to give stakeholders visibility into portfolio recovery and collections performance.
- Performed data cleansing, validation and analytical modeling to support consistent collections reporting and recovery analysis.

Information System Analyst

SASCO | Mumbai, Maharashtra, India | October 2023 - May 2025

- Analyzed multi-source operational data to prepare management reports and executive MIS dashboards for business performance reviews.
- Used SQL, Excel and business intelligence tools to monitor KPIs, operational trends and reporting variances.
- Coordinated with cross-functional stakeholders on data validation, reporting consistency and source-data accuracy.
- Delivered ad-hoc analysis, variance reports and management presentations for time-sensitive leadership enquiries.

Assistant Manager - MIS & Analytics

Kissht Finance Ltd. | Mumbai, India | January 2020 - September 2023

- Managed MIS reporting for PAN-India loan and collections portfolios, covering Risk-30+, non-performing asset (NPA) and write-off segments.
- Supervised approximately 60-70 tele-callers and 3-4 team leaders, using agent-level reporting to monitor productivity and recovery activity.
- Built Excel dashboards using Pivot Tables, Power Query and advanced formulas to track collections KPIs and recovery targets.
- Maintained customer account and payment datasets in MS Access to support recurring operational reporting and account-level analysis.
- Analyzed portfolio movement, delinquency trends, roll rates and bucket transitions to support collections performance reviews.

Deputy Manager

HDFC Bank Ltd. | Mumbai, India | August 2015 - January 2020

- Managed reporting and operational oversight for credit-card delinquency portfolios, including Risk-120 and NPA segments in the Mumbai region.
- Coordinated collections activity with six external agencies and in-house tele-calling teams, monitoring recovery and operational performance.
- Maintained portfolio tracking and recovery reports to monitor slippage, delinquency movement and management-review priorities.
- Supported audit and compliance processes through portfolio monitoring, data validation and adherence to established reporting procedures.

EDUCATION

Bachelor of Science (B.Sc.) | 2005

Dr. Babasaheb Ambedkar Marathwada University, Aurangabad, Maharashtra
